Title:	**AM-50-2 to Res 3.: Climate Adaptation Against Inequalities**
Tabled by:	Les Écologistes - Europe Ecologie Les Verts

Insert from line 49 to 50:

water conservation and sustainable irrigation; ensure fair water allocation and prioritise essential needs and ecosystems ; reform the Common Agricultural Policy to support the agroecological transition; secure farmers' income and adaptation to climate change through a public climatic insurance scheme.

Explanation / Comment

This anchors agricultural measures in concrete European levers (CAP reform for the agroecological transition) and secures farmers' incomes against climate hazards through a public insurance scheme.
