Title:	**AM-41-3 to Res 5.: Green Data Centres for Europe: Climate-Safe and Sovereign**
Tabled by:	Les Écologistes - Europe Ecologie Les Verts

From line 40 to 43:

without making electricity more expensive for everyone else. Its second is sovereignty: ~~data centres open to foreign authorities do not become European by sitting on European soil – they must be built, owned and run by Europeans, with strong data protection and cybersecurity.~~, this requires the development of public, cooperative and federated European cloud infrastructures, based on open standards, interoperability, data portability, strong data protection, high cybersecurity standards and democratic accountability.
