

Title: AM-176-1 to S 5.2: Draft 2024 Manifesto -
CHAPTER I: The Courage to Put Planet and People
First – Our Green and Social Deal for Europe

Tabled by: Europe Ecologie - Les Verts

Draft text

From line 176 to 179:

Europe needs a Common Food and Agriculture Policy to support changes in what we eat, how we produce food and where we get it from. The current agricultural model is dependent on inputs from outside the EU (fertilizer and animal feed): a new agricultural model is also a question of strategic autonomy. Our objective is to achieve a quality and local food for all Europeans, ensuring our self-autonomy. We need a fundamental shift away from subsidies for industrial agriculture based on pesticides ~~and~~ monocultures and animal suffering and towards massive investment into organic farming and agroecological production.
