

**Title:** **AM-65-5 to S 5.2: Draft 2024 Manifesto -  
CHAPTER I: The Courage to Put Planet and People  
First – Our Green and Social Deal for Europe**

**Tabled by:** SF - Green Left

**Draft text**

**From line 65 to 69:**

~~Europe needs to face the climate crisis in its full urgency, reducing its emissions as rapidly as possible in line with scientific recommendations to secure the most liveable future possible for the years and decades ahead. At the same time, investing in a clean European economy and rapidly reducing our dependence on fossil fuels strengthens competitiveness and security.~~

We stand at a turning point in history. The EU has a real opportunity to exceed its own ambitious goals and be a global leader in the green transition. And the world needs such a leader, if we are to ensure a livable future for the planet, and turn the tide on the increasing number of floods, fires and droughts that we experience in Europe and even more in countries that have less resources to tackle the consequences.'
