Draft text

From line 313 to 316:

~~We will introduce a European Climate Ticket framework, so that every part of Europe offers an affordable public transport pass easily used across different modes of public transport.~~ We will work on the introduction of a climate ticket in all European countries. We want to create the legal basis and financing structures for this. Public transport flatrate tickets in member states shall be mutually recognized. Step by step, we are making it possible to use affordable local public transport throughout the entire EU. Young people, single-parent families and the elderly should benefit from reduced fares.
