CHAPTER I: The Courage to Put Planet and People
First – Our Green and Social Deal for Europe**

Draft text

From line 70 to 75:

~~The EU has committed to the European Green Deal and introduced key policies for climate protection in the past five years. We welcome the progress but continue to push for more ambition and the full implementation of the plans already set in motion. To recognize the climate and environmental crisis, we will push to include the right to a healthy and clean environment in the Charter of Fundamental Rights, which must be directly applicable to all EU citizens.~~

Our strong presence in the European parliament has, together with the European climate movements and in particular the youth, as well as many other NGO's, scientists and other political forces, kept the EU on track to realize the European green deal. We need to continue the push to strengthen the areas where compromises have left gaps and loopholes, and to raise the level of ambition.
