| 1 | AM-4-8 | Bündnis90/Die Grünen | Zara knows what she wants: end the horrible pain of endometriosis. Find a drug that could help so many women. But sometimes it seems like people can't see any further than her skin colour, her last name, or her choice of clothing. | Insert from line 3 to 5: Zara knows what she wants: end the horrible pain of endometriosis. Find a drug that could help so many women and all affected persons . But sometimes it seems like people can't see any further than her skin colour, her last name, or her choice of clothing. | | Propose to accept |
| 2 | AM-8-7 | GroenLinks | to go out at night, walk the streets of Sofia with his partner, and bring his partner to the company Christmas party. | Insert from line 7 to 8: to go out at night, walk the streets of Sofia with his partner, and bring his partner to the company Christmas party. In 2023 Mirna voted for a non-violent Serbia, a Serbia free of corruption, free of intimidation and manipulation. Due to the further criminalization of Serbia's government the elections got stolen. Instead of going to work, Mirna demonstrates every day, together with thousands of co-citizens, to demand their truthful right: New, and this time fair elections. | We consider the introduction to be insufficient when it comes to the rule of law and democratic processes. We'd like to introduce Mirna's story to enlighten this. Thus, we add a new story about Mirna to enlighten the new sentence, where we added the term fair democratic processes. We use Mirna's story to elaborate on why we changed the sentences. | Propose to discuss |
| 3 | AM-9-2 | GroenLinks | Prejudice and discrimination continue to hold our societies back. But we can change this. It must change. | From line 9 to 10: Prejudice and discrimination ,as well as threats to fair democratic processes , continue to hold our European societies back. But we can change this. It must change be changed . | | Propose to accept |
| 4 | AM-13-1 | Green Party of England and Wales | Racism never went away. Today, Islamophobia, anti-Semitism and anti-Gypsyism are all on the rise. Discrimination and exclusion remain far too common for people | From line 13 to 14: Racism never went away. Today, Islamophobia, anti- S emritism and anti-Gypsyism are all on the rise. Discrimination and exclusion remain far too common for people | Anti-Semitism' was coined in the nineteenth century by anti-Jewish propagandist, Wilhelm Marr. He manipulated the word 'Semitic', which refers to a group of languages (including Hebrew and Arabic) that emanate from the Middle East, to lend a scientific sheen to his racial hostility towards Jews. The hyphen risks confusing discrimination against Jews with bigotry towards those who speak a Semitic language and is used by antisemites to deny anti-Jew hatred by claiming that antisemitism refers to anyone perceived as semetic (ie not just Jews). The amendment brings the policy language, with reference to anti-Jewish hate, in line with the International Holocaust Remembrance Alliance, the European Commission, and others. https://holocaustremembrance.com/resources/spelling-an-tisemitism | Propose to discuss (AM 4, 34 & 35) |
| 5 | AM-13-2 | Green Party of England and Wales | Racism never went away. Today, Islamophobia, anti-Semitism and anti-Gypsyism are all on the rise. Discrimination and exclusion remain far too common for people | From line 13 to 14: Racism never went away. Today, Islamophobia, anti-Semitism and anti-Gypsyism antigypsyism/anti-Roma discrimination are all on the rise. Discrimination and exclusion remain far too common for people | The amendment brings the policy language, with reference to anti-Gypsy hate, in line with the Alliance Against Gypsyism, the European Network Against Racism, the European Commission, the International Holocaust Remembrance Alliance, and others. The addition of anti-Roma discrimination distinguishes between Roma and other Gypsy/Traveller groups which is especially important as Roma were a particular target during the Holocaust and are still a target for discrimination in some European countries. This amendment has been agreed with the Chair of the Green Party of England & Wales Gypsy, Roma and Traveller Working Group (who will be a delegate at the Lyon Congress). | Propose to discuss |

Accessing the single market and EU budget requires meeting these criteria and progress in the process must be based on merit. As Greens, we | Insert from line 109 to 111: membership. We will support these countries on their paths to meet the Copenhagen Criteria. Deficits in democracy and the rule of law must be overcome first . Accessing the single market and EU budget requires meeting these criteria and progress in the process must be based on merit. As Greens, we | We cannot allow ourselves to accept countries that have deficits in terms of democracy and the rule of law. Any support for candidate countries that have deficits in these areas means supporting autocrats. We cannot tolerate this either inside or outside the EU. They jeopardise our democracy and peace. The example of Serbia shows us how on the one hand EU money is gratefully accepted, but on the other hand the common EU line, for example in foreign policy, is not supported. | Propose to discuss |
| 24 | AM-115-1 | Die Grünen - Die Grüne Alternative | The future of Ukraine lies in the European Union. We will support Ukrainian authorities in introducing the reforms required for EU membership. EU assistance | Insert from line 115 to 116: The future of Ukraine lies in the European Union. The special situation in Ukraine requires our special attention and support . We will support Ukrainian authorities in introducing the reforms required for EU membership. EU assistance | Everything we offer Ukraine as support in this paragraph should also apply to the other candidate countries. In order to justify why we are emphasising Ukraine in particular here, reference should be made to the special situation in Ukraine. Otherwise, it will appear as if we are only supporting Ukraine on all these issues. But the other candidate countries also need to invest in climate resilience, renewable energy, modern infrastructure and so on. | Propose to discuss |
| 25 | AM-121-1 | Die Grünen - Die Grüne Alternative | Welcoming new members must serve as a vital push for internal reforms to make it easier for the EU to make decisions efficiently and effectively. | Insert from line 120 to 121: Welcoming new members must serve as a vital push for internal reforms to make it easier for the EU to make decisions efficiently and effectively. Each candidate country should be able to follow its own path into the EU independently of the progress of another candidate country . | A country that does not make any serious efforts to make progress in the accession process can block another candidate country in this way. A candidate country should not be granted this power, which is similar to a veto right of member states. We are in favour of an end to unanimity and should remain consistent in this matter, for members and candidates. | Propose to discuss |
| 26 | AM-130-1 | Europe Ecologie - Les Verts | We will introduce a Fundamental Values Annual Review to monitor, enforce and sanction the infringement of fundamental values across the EU. | Insert from line 129 to 130: We will introduce a Fundamental Values Annual Review to monitor, enforce and sanction the infringement of fundamental values across the EU. This annual review of fundamental values should focus on indicators and measures to combat all forms of discrimination, access to healthcare, sexual and reproductive rights. The conclusion of the annual review of fundamental values should be studied before any payment of European aid or subsidies and, in the most serious cases, could lead to the activation of Article 7. | | Propose to discuss |

It can lead to both incredible developments as well as tremendous risks for humanity, therefore we want people to have more control, rather than be overly influenced or guided by technology. Artificial Intelligence must work for people, society, and the planet, not for surveillance states or | | Propose to discuss (AM 48, 49, 50, 51, 52, 53) |
| 49 | AM-363-1 | Miljöpartiet de gröna | laws must be strengthened and enforced to guarantee that AI systems do not discriminate against racialized communities. | Insert from line 362 to 363: laws must be strengthened and enforced to guarantee that AI systems do not discriminate against racialized communities. We also see a need for preventative and protective joint efforts on an EU level against AI-based hacking and protecting important infrastructure, water and food supply etc. | We have in Sweden seen a sharp increase in hacking attacks after the introduction of AI also with the attack of Russia against Ukraine, it is likely that these attacks will continue with these or other bad faith actors this likely also affects other countries within EU as well and will continue to be something that is needed to be dealt with not only after the fact but preventative. AM drafted by delegate Gabi Rehbinder. | Propose to discuss (AM 48, 49, 50, 51, 52, 53) |
| 50 | AM-363-2 | Europe Ecologie - Les Verts | laws must be strengthened and enforced to guarantee that AI systems do not discriminate against racialized communities. | Insert from line 362 to 363: laws must be strengthened and enforced to guarantee that AI systems do not discriminate against racialized communities. Any AI-guiding policies will align with values such as what people want, putting human safety first and fairness. Deepfakes should be labelled as such by the programs that create them; Communications coming from artificial people, and automated interactions that are designed to manipulate the thinking or actions of a human being, should be labelled as well. We also agree that these labels should come with actions that can be taken. People should be able to understand what they're seeing, and should have reasonable choices in return. | | Propose to discuss (AM 48, 49, 50, 51, 52, 53) |

| 51 | AM-363-3 | Europe Ecologie - Les Verts | discriminate against racialized communities. We also want to ensure AI promotes, not hampers, the Green Deal with key | Insert from line 363 to 364: The systems must be made more transparent. We need to get better at saying what is going on inside them and why. We will strive to achieve a common definition of data dignity with the other worldwide players, as data travels beyond the limit of the EU. In a world with data dignity, digital stuff would typically be connected with the humans who want to be known for having made it. In some versions of the idea, people could get paid for what they create, even when it is filtered and recombined through big models, and tech hubs would earn fees for facilitating things that people want to do. We also want to ensure AI promotes, not hampers, the Green Deal with key | | Propose to discuss (AM 48, 49, 50, 51, 52, 53) |

As Greens, we believe that the worlds of culture and creativity can play an important political role in helping us imagine solutions to the challenges of our time. | Insert from line 399 to 402: Art and culture are some of society's most powerful tools to tell stories, change minds, and build solidarity. Our rich cultural heritage and our diverse and vibrant arts scene are a core feature of what unites Europe, makes it unique and attractive. As Greens, we believe in the value of artistic expression in itself and as an essential part of our democracy. As Greens, we also believe that the worlds of culture and creativity can play an important political role in helping us imagine solutions to the challenges of our time. We want to foster the freedom of cultural expression by supporting it through public funding and defending it against attacks and pressure from far-right forces. | | Propose to discuss |
